230M^2 BUILT

3 ROOMS

3 BATHROOMS

TERRACE

This large House takes advantage of its more than 200 meters square with large interior rooms and pleasant terraces with open views and the sea, since not only account with a terrace, but with several. Due to the volume of traducir we will not have space problems, as happens regularly to move from a villa to an apartment.

Upon entering the housing then can check the quality of construction, as stone rough, very typical in Javea, is present in the home. We recommend you to visit and see for yourself how with a little modernization and personal touch can definitely find that House has been looking for.
