Construction work is expected to start in October 2024, with an estimated construction period of 20 months, after which the plots will be notarised at the notary. This means that you will be able to enjoy your future home in Jávea in June 2026;

The structural qualities inside the houses include flooring made of rectified stone-effect porcelain stoneware throughout the house, exterior joinery made of lacquered aluminium with thermal bridge interruption. Motorised aluminium blinds in the living ...
